EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this Examiner's Amendment was given in a telephone interview with Ms. Selah C. Park on August 27th, 2007.

2. The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 29-34 directed to an invention non-elected without traverse. Accordingly, claims 29-34 been cancelled.

In the claims:

Cancel non-elected claims 29-34.

In independent claims 19 and 24, line 6, replace "conducting" with --conductive--.

In independent claim 24, line 3, after "of the first region", insert -- , the
conductive thin film having a plurality of first openings in the first region --.

Allowable Subject Matter

3. Claims 1-13, 19-27 and 36 are allowed over prior art of record.

Reasons For Allowance

4. The following is an examiner's statement of reasons for allowance:

After further search and consideration of Applicants' response in the Amendment
After Final filed on August 10th, 2007 (see Applicants' response in Page 12, lines 9-19 of

the August 10th, response), it is determined that the prior art of record neither anticipates nor renders obvious the claimed subject matter of the instant application as a whole either taken alone or in combination, in particular, prior art of record does not teach or suggest “a third opening formed in one of the conductive thin film and the conductive support and the insulating film; and a conducting member formed in the third opening excluding an inner wall of the first openings, the conductive member connecting the conductive support and the conductive thin film electrically”, as recited in independent claims 1, 9, 19 and 24, respectively.

Claims 2-8, 10-13, 20-23, 25-27 and 36 are also allowed as being directly or indirectly dependent of the allowed independent base claims.

Conclusion

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
